ITEM DESCRIPTION

| | |
|---------------|---|
| ITEM | Armchair Reflex Cognac |
| AREA | Meeting Room |
| DRAWING REF. | |
| SUPPLIER REF. | Alle Pilat |
| SIZE | W850 x D850 x H950mm. SH400mm. |
| QUANTITY | Refer to Drawings |
| COST | |
| DESCRIPTION | Upholstered armchair in Cognac leather with black base. Material to be as per image / specified. |

SPECIAL REQUIREMENTS

Seat upholstery must meet international & local standards. Cushion density must be a minimum of 1.8lbs per square ft. Upholstery must be wrapped with multi layers of poly Dacron. Use CMHR foam or Code Red foam on all foam core construction. Upholstered items internal composition to comply with international and local fire retardency codes. Stitching detail on upholstery to be followed as per image. All finishes to be anti-fungal & anti-termite treated. Provide suitable adjustable nylon glides at base / legs. Manufacturer to ensure 100% stability & proper weight support. Manufacturer to submit finish samples, shop drawings & exact prototype for Designer approval prior to fabrication. Dimensions are subject to change as per a result of perfecting prototype. Manufacturer to make any necessary adjustments during inspection, provided that they are not beyond the design intent. All materials to be guaranteed rust and corrosion proof. All fabrics to be dimensionally stable and to have appropriate backing for upholstery use. Fabric to be treated with Scotch guard fabric protection treatment and comply with fire & safety regulations. All supplied items to be of high contract quality, suitable for commercial use.

GENERAL NOTES

Refer to "NBS Outline Specification" for warranty requirements, environmental guidelines and care/ maintenance instructions. If manufacturer other than specified source is used, refer to the Preambles, referencing copyright issues. This specification sheet is to be read in conjunction with relevant drawing package. The method of construction, framing, jointing, fitting, fastening and finishing to be of the highest standard for a five(5) star hotel use. Image is for design intent only and will be developed during design process in terms of size, details and finishes. Any alternative products or suppliers other than the specified may be considered but must be of equal quality and approved by the designer and operator.

| ITEM | Rectangular Chandelier 49" |
| AREA | Meeting Room |
| DRAWING REF. | |
| SUPPLIER REF. | Restoration Hardware |
| SIZE | W1244 x D355 x H279mm. |
| QUANTITY | Refer to Drawings |
| COST | |
| DESCRIPTION | Chandelier with optical-quality crystal prisms hanging from brass frame fixed with 6mm. metal chains on the ceiling. Material to be as per image / specified. |

SPECIAL REQUIREMENTS

Installation height of Chandelier: Approx. 2000mm. AFFL. to bottom of light.
Suspension wires to be adjustable on site. To be fixed on ceiling grid channel between the perforated panels. Exact installation points to be verified on site.
Technical information to be provided by lighting consultant. To be hardwired. No internal electrical cord or wiring to be exposed. All public space lighting to be linked to programmable dimming panel and/or switches. Manufacturer to provide finish samples, shop drawings & exact prototype for Designer approval prior to fabrication. Manufacturer to make any necessary adjustments during inspection, provided that they are not beyond the design intent. Lamps: Provide energy efficient lamps. Fixture must be Underwriters Laboratory (UL) approved and meet all applicable local code requirements for project location. Warm light to be achieved. Manufacturer to supply all necessary hardware and instruction for installation of fixture. Manufacturer to ensure that the bulbs they specify are available locally.

GENERAL NOTES

Refer to "NBS Outline Specification" for warranty requirements, environmental guidelines and care/ maintenance instructions. If manufacturer other than specified source is used, refer to the Preambles, referencing copyright issues. This specification sheet is to be read in conjunction with relevant drawing package. The method of construction, framing, jointing, fitting, fastening and finishing to be of the highest standard for a five(5) star hotel use. Image is for design intent only and will be developed during design process in terms of size, details and finishes. Any alternative products or suppliers other than the specified may be considered but must be of equal quality and approved by the designer and operator.
