

Object: Gulf ARGOILI

n/n			Description	Measurement unit	Quantity
<b>Building (frieze L = 28.1mp, sheathed from three sides)</b>					
1	Frieze 	frieze	The frieze of the building consists of Aluminium flat panels with special color blue with gloss. H = 542 mm. Complete with a subsystem for attaching to building structures and hardware.	M2	3.25
2	3D letter (sign) 	3D letter (sign)	Formed mortise in the frieze of the building letters "Gulf Store" (English) front panel of acrylic 3mm. Internal LED backlighting by LEDs (Cree LEDs). Set of 9 letters.	Piece	9
3	3D letter (sign) 	3D letter (sign)	Formed mortise in the frieze of the building letters "Gulf Store" (Georgian Language) front panel of acrylic 3mm. Internal LED backlighting by LEDs (Cree LEDs). Set of 9 letters.	Piece	9
4	Aluminum profile 	Aluminum profile	The profile of the junction of the frieze to the building in the upper part is made of aluminum with a polymer coating (white), h = 200mm	M2	1.2
5	Mood lightning 	Mood lightning	A strobe with LED backlight to illuminate the frieze of the building.	M	6.00
7	frieze 	frieze 	The frieze of the canopy consists of Aluminium rolled flat panels with special color blue with gloss. H = 900 mm. Complete with a subsystem for fastening to a canopy metalware and hardware.	M2	84.70

8	3D letter (sign) 	3D letter (sign)	Formed mortise in the frieze of the canopy letters "Gulf " (English) front panel of acrylic 3mm. Internal LED backlighting by LEDs (Cree LEDs). 1 Set of 4 letters.	piece	1.00
9	3D letter (sign) 	3D letter (sign)	Formed mortise in the frieze of the canopy letters "Gulf " (Georgian Language) front panel of acrylic 3mm. Internal LED backlighting by LEDs (Cree LEDs). 1 Set of 5 letters.	piece	1.00
10		19 3D GULF logo English	Formed 3D logo in the canopy column (Georgian Language) front panel of acrylic 3mm. Internal LED backlighting by LEDs , Dimensions : 1130*1050 mm	piece	1.00
11	Steel parapet 	Steel parapet	Galvanized steel parapet with a thickness of 0.5 mm, with locks. Without internal metal frame. Fabrication at a construction site.	m2	53.00
12	Mood lightning 	Mood lightning	Backlight panel ,aluminium rolled 190mm	Meter	77.00
13	Ceiling 	Ceiling	0.7mm galvanized steel suspended ceiling composed of: white panel with a width of 325 mm, docking profile, metal frame made of galvanized pipe and fittings, hardware.	m2	463.00
14	LED lightning 	LED lightning	LED Light, built into the suspended ceiling. Rectangular or square. Degree of protection against environmental impact IP65-67, operating temperature range from -30 to +50 degrees. Easy removable design for maintenance and replacement.	piece	19.00
15	Light box (information Box) 	Light box (information Box)	Information light box ,intercolumn bilateral. Made of sheet aluminum 1.6 mm thick, with a polymer coating application, mounted in to canopy column , with LED backlight	piece	2.00
16	column cladding 	Pillar cladding	Column cladding bottom part of canopy made of aluminum, 1.6 mm thick, with a polymer coating. Complete with metal frame. The height of the supports is determined by the height of the canopy, the sweep depends on the size of the core of the support. Height 3250*6360m, 1pcs	m2	54.80

18	Price board 	Totem 	<p>Stela price 9500 mm (FLAG TYPE)for 5 types of fuel . Double sided. The stele panels are made of aluminum with a thickness of 1.9 mm with a polymer coating. The logo is made of molded white milk acrylic with UV printing. The logo is illuminated with white LEDs.</p> <p>The price panel is made of polymer coated aluminum. Highlighting the types of fuel and the cost of fuel made by white LEDs.</p> <p>The upper information panel is made of aluminum with a polymer coating and appliqué with UV printing.</p> <p>The lower information panel of the stele is made of aluminum with a polymer coating. The information is applied using a vinyl film with UV printing.</p> <p>The stele is equipped with an infrared remote control for price lines.</p>	Piece	1.00
19	Steel trash bin 	Steel trash bin	Combined service unit on a fuel platform made of polymer coated steel. Includes a towel holder, a washing station for washing glasses, a box for gloves and a garbage container	piece	2.00
20	Protective arc steel 	Protective arc steel	The protective arc is made of a steel pipe with anti-corrosion treatment by galvanizing and a decorative polymer coating. With a set of hardware for installation.	piece	2.00
21		19 Aluminium profile	Transitional profile of joining the frieze to the canopy ceiling h = 0.1m. Made of white polymer coated aluminum	m2	7.70
22		19 3D GULF logo English	Formed 3D logo in the canopy column (English Language) front panel of acrylic 3mm. Internal LED backlighting by LEDs , Dimensions : 1130*1050 mm	piece	1.00

16	column cladding 	Pillar cladding	Column cladding upper part of canopy made of aluminum, 1.6 mm thick, with a polymer coating. Complete with metal frame. Height 3250*2317m, 1pcs	m2	21.46
