1. Brief information on the project

Title: Good Financial Governance in Georgia (GFG)

GFG is implemented by *Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH* on behalf of the German Federal Ministry for Economic Cooperation and Development (BMZ).

Programme Objective: Selected Georgian municipalities plan and implement their budgets in a more result – oriented, gender - sensitive and participatory way.

Fields of Action:

- a) The municipal budget planning system is geared towards cost efficiency and result orientation
- b) Selected municipalities are fully accountable for implementing their budgets
- c) Citizen participation in local budget planning and implementation processes

Commissioning period: 01/04/2023 – 31/03/2026

2. Context

Being the most effective tools of public expenditure and financial accountability assessment, PEFA objectively assesses the quality of the state (municipal) financial management.

The Public Expenditure and Financial Accountability (PEFA) program provides a framework for assessing and reporting on the strengths and weaknesses of public financial management (PFM) using quantitative indicators to measure performance. PEFA is designed to provide a snapshot of PFM performance at specific points in time using a methodology that can be replicated in successive assessments, giving a summary of changes over time. The PEFA framework includes a report that provides an overview of the PFM system and evidence-based measurement against 33 performance indicators for Sub National level Government (SNG). In 2022, the PEFA Secretariat updated the Guidance for Subnational Government PEFA Assessments¹. The assessment of the municipalities' PFM system should be carried out according to this guidance.

Also, in addition to the standard indicators, the PEFA assessment takes into account the assessment of public finances from a gender perspective (Supplementary Framework for

Assessing Gender Responsive Public Financial Management²). The evaluation takes into account 9 additional indicators. The assessment of the municipality's PFM system should also be carried out using gender indicators.

The objective of the following assignment is to assess the public financial management system in 6 Georgian municipalities by applying PEFA Indicators.

3. Tasks to be performed by the contractor

- a. GIZ shall hire service provider for the anticipated contract term, from 25.06 to 01.09.2023
- b. The service provider shall conduct the following work/service:
 - Analyze fulfillment of the previous obligations stipulated in the memorandums between MoF and municipalities
 - Recommendation on the content of the new memorandums for within this assignment selected 6 municipalities
 - Assessment of public financial management (PFM) system with the application of PEFA indicators;
 - Provide specific recommendations and measures for the upcoming three years to fill the shortcomings identified in the assessment process. Define the target indicators that enables assessment of fulfillment of recommendations/activities;
 - Municipal public financial management should be assessed in gender perspective (Gender responsive financial management) with the consideration gender indicators.

Within the frames of an assignment, assessment of the past three-year period should be carried out in each municipality, that includes the years 2020-2022. In the course of the assessment, coverage, time period and measurement guidance defined by the PEFA methodology should be considered for each indicator.

PEFA assessment structure consists of the following 7 main and one additional SNG pillars:

SNG, intergovernmental fiscal relations:

1. Budget reliability
2. Transparency of public finances
3. Management of assets and liabilities
4. Policy-based fiscal strategy and budgeting
5. Predictability and control in budget execution
6. Accounting and reporting
7. External scrutiny and audit

Within the frames of the assignment, service provider should only assess the municipalities but not the central government. Furthermore, assignment does not include the assessment of external audit.

Service provider should assess public financial management system of the municipalities through the application of SNG PEFA methodology indicators. Mentioned assessment does

not envisage undergoing all formal procedures and phases defined by the methodology, including adoption of the PEFA checks. Additionally, the assessment reports should clearly present the state of play regarding the public financial management (PFM) system of the municipalities. The applicant should present the ways and means to achieve the abovementioned objective within the tender proposal.

During the final assessment of each indicator, weakest link method (M1 (WL)) and averaging method (M2 (AV)) should be applied.

Service provider should follow the below given definitions of the dimensions identified by the methodology:

- ✓ All refers to 90 percent or more (by value).
- ✓ Most refers to 75 percent or more (by value).
- ✓ Majority refers to 50 percent or more (by value).
- ✓ Some refers to 25 percent or more (by value).
- ✓ A Few refers to less than 25 percent and more than 10 percent (by value)

Along with the assessment of municipal public financial management (PFM) with the application of standard PEFA indicators, PFM should be assessed with the application of additionally elaborated gender indicators (Gender Responsive Public Finance Management).
