

# Cut Section

1. Letters – Height should be between 3.00 to 3.40 meters, with a depth of 10 to 20 cm depending on the proposed solution. The sides should be black, matching the background panel. The front faces of the letters should be white, illuminated with white LED lights (6400K).
2. Back Panel – Height should be 5.00 meters, with a depth of 4 to 8 cm depending on the cabling solution.
3. Existing Structure – The total length of the existing structure is 40.50 meters; exact dimensions should be verified on site.
